## What is this product?

**Type** Sub-fund of Selectum Stock Picking Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as an open-ended investment company (SICAV) in Luxembourg.

**Objectives** To offer shareholders a maximum increase in their investment over the medium term (5 - 7 years). The Investment Manager anticipates that under normal market conditions the sub-fund will mainly invest in a broad mix of equities issued by companies listed on the official stock market in any member state of the European Economic Area (EEA) or Switzerland.

This sub-fund is actively managed meaning that the Investment Manager has, subject to the stated investment objectives and policy, discretion over its portfolio, with no reference or constraint to any benchmark. The Sub-Fund is managed based on intensive research on individual companies, focusing on their fundamental qualities and their potential to increase cash flows. The Investment Manager uses a vigorous and ongoing process of analysis that includes research as well as interviews with senior management.

Investors may redeem units on demand. Orders to subscribe or redeem sub-fund shares are processed every Luxembourg banking business day.

Dividend income is not distributed, but reinvested.

**Intended retail investors** The sub-fund is not accessible to retail investors. Class F shares are reserved for institutional investors agreed upon by the Board of Directors.

**Term** Indefinite duration.  
The Board of Directors of the Fund may decide to liquidate a sub-fund or class by carrying out a compulsory redemption of all the shares issued in such sub-fund or class at the net asset value.

**Depositary bank** CACEIS Bank, Luxembourg Branch (the "Depositary")

**Other information** Please contact the Fund or Link Fund Solutions (Luxembourg) S.A. at their registered office for any additional information, or to obtain a free copy of the Fund's prospectus in English or the annual and semi-annual reports in English. ## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product in risk class 4 on a scale of 7, which is a a medium risk class. Adverse market conditions could decrease the value of your investment.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		5 years	
Investment:		10 000 EUR	
Scenarios		If you exit after 1 year	If you exit after 5 years recommended holding period
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	5510 EUR	3210 EUR
	Average return each year	-44.9%	-20.3%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	6570 EUR	8290 EUR
	Average return each year	-34.3%	-8.4%
<b>Moderate</b>	<b>What you might get back after costs</b>	10386 EUR	11142 EUR
	Average return each year	3.9%	2.2%
<b>Favourable</b>	<b>What you might get back after costs</b>	17160 EUR	15610 EUR
	Average return each year	71.6%	9.3%

The unfavourable scenario occurred for an investment between August 2021 and December 2023.

The moderate scenario occurred for an investment between October 2018 and October 2023.

The favourable scenario occurred for an investment between August 2016 and August 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Selectum Stock Picking Fund is unable to pay out?

The sub-fund's assets are entrusted to the Depositary. If the Depositary (or its delegates) encounter financial difficulties, the sub-fund could suffer a loss in some circumstances.

The sub-fund's assets are segregated from those of the other sub-funds in the SICAV.

The sub-fund is not covered by a compensation or guarantee scheme for investors.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	210 EUR	480 EUR
Annual cost impact (*)	2.1%	0.9%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.1% before costs and 2.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (1.25% of the amount invested at subscription). This person will inform you of the actual distribution fee.

### Composition of costs
